. THE FAUQUIER WHITE SULPHUR SPRINGS. The officials of the Virginia Midland Railroad have shown a commendable interest in one great enterprise-the resoration of the Fauquier White-by giving to the president and board of directors every facility in their power for prompt and reasonable transportation of isborers and material designed for the erection of the new hotel. Mr. Barbour, looking to the future prosperity of his railroad and the material development of this portion of the State, has shown his wisdom by becoming a stockholder in advancing the interests of the Fauquer White Sulphur Springs Company, eviceing thereby a far sightedness as well as public spirit which others might well emulate.

The Late Base Ball Match in King George County.

ALDEN P. O , KING GEO CO. VA , Ju!e 8.h. 1879

I had hoped that when the truth in reference to the late match game of his; ball between the Petermaes and Old Dominions was published in the G. zate a short time ago, over the signa ture of "Aiden," the controvery would have coded. But in your is ue of the 31 of July, 'Sharpshooter," whose disinterestedness is so pure, takes occasion again to ventilate the qu stion, mistate the score and make an abusive personal attack on one of the Potomac's nive, in the hope that such high-toned charity and coble di-interestedness may serve to neoncile all existing differences between the parties, and also to get als name in the Giz ite. Lam sorry to trespass again upon the columns of the Gazette and would not do en but for the unkind reference to one of the Potomac's nine. I here for the last time desire to distincely state that the score stood at the offise of the seventh ioning and last inning: Potemacs, 37, and O.d. Dominions, 19, which score was announced by the Empire in the presence of both nines and a large cr. wd of sp ceators, and has never been disputed by any one except in print under nommes de plume. If the so called professional player is a second hand tinsmith his trade is

far more honorable than the temporary calling f "Sharpshooter," while his toogue is far bet ter developed in a certain line than the pen of Sharpshooter, and brains, judging from Sharpshoot r's article, would ormmand as high a fremium in one case as the other. Manufacturers of tin horns are not more objectionable than the blower of brass trumpers. If pring this may end the ball. "ALDEN."

THE VALUE OF BIRDS. - The swallow, swift, and nighthawk are the nu ordinas of the atmos and insects would become so numerous that no hoppers which have lately devastated the West, is and subtedly eaused by the thinking out of the birds, such as grouse, prairie hers, etc., which feed upon them. The great and inestimable service described fruit taken by them is more than compets wed for the vast quantities of nexious instens destroyed. The long, long persecuted grow has been found, by accust experiment, to do far more good, by the vast quantry of gruns and insec s he devours, than the little barm he does in a few grains of coro he puls up. He is one of the farmer's best friends. - Springfield Republican.
